

## ABOUT THE ARTIST

Since 1981, my balance of creativity, technical expertise, and experience has given me an opportunity to be trusted to do a wide range of assignments for thousands of clients around the world for advertising, commercial, editorial, PR, and personal use. The first part of my career was spent learning from the best in the world, the story-telling, people and portrait photography skills, techniques, planning and how to adapt those plans to the realities of the day photographing **1,500+** once-in-a-lifetime weddings and **2,500+** lifestyle portraits. Since focusing on commercial photography, I have used these same skills and experience to plan and photograph, on average, more than **100** commercial projects each year with over **250** images being used in more than **150** pieces of advertising and editorial, print and digital media per year, **1,800+** total pieces to date around the world. With the same hard work I put in when I started my career, I am honored to be considered as one of the top commercial, people, event, and performance photographers, and one of the most versatile visual storytellers you will find today with an authentic look and natural style. My clients appreciate that I am a true and consummate professional. I show up dressed appropriately for each assignment and with all the right equipment – ready to work. I've got an easy-going personality and confidence that puts my subjects at ease and allows my clients to trust me on any project, to interact with anyone (including two U.S. Presidents), anywhere, with integrity and a smile.

Born in Los Angeles and raised in Orange and Corona del Mar in Southern California, I grew up on the beach, in and on the water, played baseball and golf, became an Eagle Scout, enjoyed playing drums in my cover band, worked in the grocery business and am a graduate of Corona del Mar High School. In 1972, I was drafted into the Army and was stationed near the DMZ in South Korea. I was the battalion legal clerk until, by chance, I ran into my lead singer from my band in junior high and high school. We formed a rock band and became so popular that it became our job until I was honorably discharged in 1974. I returned home and went to college at Orange Coast College and California State University-Fullerton. After completing college with a degree in psychology and a minor in business and photography, I followed my life-long passion for photography and started the dedicated and deliberate work needed to develop my talent, to become one of the best at my craft, and make it my life's work. To master the photographic craft skills (how), the psychology of photography (why) and the business of photography to succeed, I studied with the very best and, over time, became a recognized, award-winning photographer from local to national and international circles. I have wholeheartedly given back to my profession - to help those as I was helped - by becoming a leading member of the local, state and international professional photography organizations as a teacher, mentor, and image judge.

I am now a Life Member after joining the **Professional Photographers of America (PPA)** in 1981 - the world's largest nonprofit association for professional photographers, with more than 30,000 members in 50 countries. I hold the prestigious **Master of Photography, Photographic Craftsman Degrees** and I am a **Certified Professional Photographer** (which celebrates superior photographic competence through photographic competition, advanced education, and service to the profession). These awards, passing the Judges' Workshop, and ten years of practice as a local and state judge helped me to become one of only **120 PPA National Affiliate Jurors**, from 2001 to 2015. During each year's PPA International Competition, we would judge over 5,000 images which allowed me to stay in touch with trends and techniques used by photographers from around the world.

I hold the **Fellowship and Service Awards** which are the top awards given by the **Professional Photographers of California (PPC)** and I am a Past President and Lifetime Member of the **Professional Photographers of Orange County (PPOC)**. I have won numerous awards for my artistry at the local, state, national and international levels. One of the highlights was when I received a perfect score of 100 points for my print entitled "Modern Oriental" which became the one and only **Grand Award Winner** in the **Wedding and Portrait Photographers International (WPPI)** print competition in 1993. All of these honors and accolades helped me to become a member of the **Fuji Talent Team** from 1986 to 2011. The team did research and development projects one year and I would teach my peers the next year about the new products around the world. This helped me stay in touch with technological advances in the industry - from the film to the digital era. In 2001, I was asked to teach a portrait photography class at the **University of California Irvine Extension Program** which I did from 2001 until 2012.

As I changed my focus from personal wedding and portrait work to commercial assignments for advertising and editorial use, I was invited to become a member of the **American Society of Media Photographers (ASMP)** in 2013. In 2007, I became a contributor for **Getty Images** and, in 2013, also joined **ZUMA Press**, creating and selling a number of editorial images annually on each of their websites.

I have been married to the love of my life, Karen, since 1980. Together, we have lived a wonderful life, enjoying art and cultural events, performances, sporting events, and other life-changing experiences, here in Southern California, and while traveling to 45 states throughout the United States, and in 60+ countries around the world. We enjoy spending time with our family and friends and giving back to our community.

## PROFESSIONAL RESUME

Doug Gifford, M.Photogr.Cr. CPP

### PROFESSIONAL PHOTOGRAPHERS OF AMERICA

## ENTERTAINMENT

### Performing Arts - Film - Production - Museums

Doug is recognized one of the premier entertainment photographers in Southern California and beyond for his unique ability to photograph all aspects of a project. His entertainment client list includes some of the top performing arts organizations and companies around the world in dance, music, theater, Hollywood film studios, production houses, and museums. His exceptional people skills and professionalism allows him to be trusted with top talent, donors, staff and patrons covering all types of events, as a social/editorial photographer for red carpets, parties, galas, and other work for his clients, including Getty Images. His drummer's timing, sports photography background, and years' of experience, makes him a great live performance photographer of dance, music, theater, and more. 1000's of his images can be seen around the world in advertising pieces, a Disney documentary, 40' banners, billboards, posters, and 100's of books, programs, articles and digital media.

#### **ORANGE COUNTY MUSEUM OF ART / 2004 - 2019**

Special Events

## SPORTS

Doug has covered many different types of sporting events around the world for photo agencies (e.g., Getty Images and ZUMAPress) and as a staff, team, and freelance photographer producing extraordinary storytelling images for multiple uses. Doug's favorite work, since 1985, has been to photograph yacht racing from a chase boat, or on one of the racing yachts. Doug loves the challenge of keeping his equipment and himself dry, the boats in the frame, and the horizon straight. Another favorite, since 1982, has been his work in the loud, fast, and dangerous world of motor racing. Photographing any sport is all about being trusted to have access to put yourself in the right place, at the right time, with the right equipment to get "the shot". 1000's of Doug's images can be seen in 100's of advertising pieces, posters, books, articles and digital media around the world.

## Editorial - Media Usage List

*Known* usage of images in **Editorial (E), Website (W), Books (B), Movies (M), TV (TV), Social Media (SM)**

As a staff member, freelancer, and contributor to multiple photo agencies and publications, Doug has been trusted to create the images that tell the story of thousands of entertainment, sports, news and social events around-the-world.

Several thousand of those images have been used in editorial stories in over 1,800 pieces of media around the world, including in a Disney documentary movie, *Morning Light*, BBC, in multiple dance and sailing books & publications, performing arts & sports programs, LA Times, Coast Magazine, Yahoo News, Forbes and People...just to name a few.
