

Wedding Coverage

Your wedding, your way!

Photographs that speak for themselves!

Natural and unobtrusive wedding photography which complements your style!

Since 1981, Doug Gifford has been trusted by over 1,500 couples to joyfully and artistry capture their wedding day story in locations around the world.

He has worked hard to master his craft and is recognized as an internationally-acclaimed photographer with a relaxed, natural style and one of the most versatile visual storytellers you will find today. His balance of creativity, technical expertise and experience allow him to handcraft memorable photographic images of your wedding day. He is a consummate professional with an easy-going personality who loves life and does business with integrity and a smile.

Doug does all the photography himself and has welcomed and experienced it *all* - or so it seems until the next wedding. He is an expert portrait artist and can do classic or lifestyle portraiture and has worked for years as a photojournalist for Getty Images and many other publications covering entertainment, fashion, and sports. All those years of openness to all, experience, training and staying on top of the current trends in wedding coverage allows him to adapt to the photographic style that fits who you are and what you want to do. Doug's passion and easy-going personality fit in anywhere - and in harmony with the other event services and facilities. His attitude is about working for *you* and what you want to be done, supported by his quick, creative, decision-making and efficient style, make it fun.

Because he takes his responsibility seriously of capturing every memory of this important day, Doug uses only the finest quality cameras and equipment, carries plenty of backup equipment and is fully insured.

You are given a choice of pricing choices – all intended to provide optimal value for the simple to the most elaborate wedding. By talking over a "game plan" with you at the complimentary pre-wedding consultation and engagement session, Doug will be able to determine just how much time will be needed to cover the day's activities. During this time, you will experience what it is like to be in front of the camera as well as learn about who needs to be where and when on your special day in order to capture the best possible images. This approach allows all of you to feel as if you are working together as friends and have great fun on your wedding day!

His professional lab can produce any style of the finished product: color, black and white, sepia tone prints on any surface. He offers you a choice between square or vertical professionally made album in many different sizes and colors, laid out just the way you want.

All of the wedding coverages include a high-resolution copy of all the files and personal usage rights.

Please contact us today so we can talk about how we can help you with your wedding day photography needs.
